

Kolding, June 2014

## Regulation – chemical products from Novadan

Novadan is certified according to the international standards ISO 9001 and ISO 14001 and have procedures to ensure compliance with relevant legislation for production and sale of chemical products.

### General

#### **All chemical products from Novadan complies with the following legislation**

- Regulation No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).
- Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP) of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC.
- Directive No 67/548 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances
- Directive No 1999/45 concerning the approximation of the laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of dangerous preparations

### Special products

#### **Detergents are in compliance with the general legislation and the following legislation from the European Parliament and of the Council of the European Union**

- Regulation No 648/2004 on detergents

The content of detergents is declared in section 3.2 in the Safety data sheet (MSDS).

Products from Novadan comply with the general requirements of the European food legislation for products used in food processing companies. This means that, the products in normal use and dosage or under foreseeable circumstances not transfer their constituents to food in quantities which could cause human health.

**Disinfectants (Biocides) are in compliance with the general legislation and the following legislation from the European Parliament and of the Council of the European Union :**

- Regulation No 528/2012 (and amendments) concerning the making available on the market and use of biocidal products

The Biocide regulation comes in force in steps over the next 10 years as the EU evaluate and accept active substances.

Novadan is only using active substances which are included in the EU review program.

Furthermore all disinfectant for the food industry are evaluated and approved by the Danish Veterinary and Food Administration.

**Best regards**
